Georgiana married Frank after she divorced the father of George Dolcini. Two Wallman/Matsuyama children, one of which was Alvin, were taken to a Japanese internment camp on the San Francisco Peninsula during WWII. All Matsuyama children changed surname to Wallman to avoid discrimination. Frank avoided internment by moving to Denver and working for the police there. MOUNTAIN CEMETERY *walking tour*

This brochure spans a time period from 1807 to 1994. The primary purpose of the brochure is to highlight the many historical interests associated with the Mountain Cemetery. The Mountain Cemetery was established in 1841 and is one of the oldest operating cemeteries in the western US.

The Mountain Cemetery is situated directly adjacent to the Sonoma Overlook Trail and to Schocken Hill, location of former basalt quarries important to Sonoma's economic and immigrant history. It seemed like a natural to connect these dots for a brochure.

Basalt deposits run along the mountains from Sonoma to Santa Rosa. The quarry industry and demand for stone pavers part ways brought railroad lines to serve the transportation of this stone, as well as for agricultural produce: fruit, nuts, dairy, eggs, turkeys etc.

The quarries produced millions and millions of blocks for regional street paving and building. Much of the stone in the cemetery, in some buildings on the Plaza, in local homes, bridges and walls, and barn foundations comes from these quarries.

You will find interesting cross-overs with this brochure and the Sonoma Walking Tour brochure centered around the Plaza. From the historical sign on the upper loop of the Overlook Trail you can look out over the valley to Schellville, Wingo and Sears Point and see where the old rail, sail and steamship routes took quarry block and agricultural produce down to San Pablo Bay and then to the urban core. The people participating in this life and work are buried in the cemetery.

In this self-guided tour you will meet cowboys, Indians, ranchers, agriculturalists, martial arts instructors, murderers, builders, bakers, real-estate tycoons, quarrymen, map-makers, accountants, leaders, pipefitters, blacksmiths, bootleggers, bankers, grocers, hoteliers, stone masons, fraternal order members, speculators, young, old, among others. Enjoy!

This brochure is available for free at the Visitor's Center and the Overlook Trail kiosk.
